EXECUTIVE SUMMARY

To work as a Software Engineer where I can use my skills in programming and problem-solving to create useful and innovative solutions, grow my knowledge and contribute to the success of the company.

EDUCATION

B.E. in Computer Science Engineering, Panimalar institute of Technology 2021 -2025
CGPA :- 8.53

XII - Computer Science, SDA Matric higher secondary school 2020 - 2021
Percentage :- 81.8 %

SKILLS

Technical Skills Core Java, SpringBoot, Hibernate, SQL, .
Soft Skills Adaptability, Time management, Leadership .

INTERNSHIP

Research & Development Intern July 2024 - Jan 2025
Zrae Global (Zion Robotics) *Chennai (On-Site), Tamil Nadu*

- Led project management and independently built a dynamic company website.
- Conducted research on reverse engineering and malware analysis to enhance security.
- Have also worked on some machine learning projects, especially with the chatbot development with Ollama model integration.

PROJECTS

Restaurant Management System in Java. Developed the "Chick 'n Crave" Restaurant Management System using Java, featuring admin authentication, interactive menu handling, order management, tax calculation, and receipt generation. The project strengthened my understanding of core OOP concepts and real-world application design.

Employee Management System using Java - Springboot. Designed and developed a RESTful Employee Management System using Spring Boot and Spring Data JPA, implementing complete CRUD operations for employee records. Integrated MySQL for persistent data storage.

Multi-Tenant SaaS Inventory Management System. Developed a full-stack enterprise inventory and billing platform that enables multiple businesses to securely manage products, inventory, procurement, billing, and reports within isolated tenant workspaces. Implemented JWT-based authentication, tenant-level data isolation, inventory tracking, billing workflows, low-stock monitoring, and responsive analytics dashboards using React, Spring Boot, MySQL, and REST APIs.

ACHIEVEMENTS

- Worked as a freelancer and completed three projects.
- Volunteered as a Design Co-Lead in Google Developer Groups, PIT. .

INTEREST

- Python.
- Angular
- ReactJs
